## EXPERIENCE

**Edmingle**, Onsite— *Software Engineer*

(July 2023 - Present)

**Edmingle**, Onsite - *Software Engineer - Intern*

(Jan 2023 - Jun 2023)

JANUARY 2023 - Present (BENGALURU, KARNATAKA)

- Developed and Modernized a comprehensive Assessment System in **Ember.js** for exams, assignment submissions, and custom links.
- Designed intuitive user interfaces for students and instructors, streamlining exam-taking and assignment-submission processes.
- Conducted thorough testing and debugging, ensuring a reliable and error-free user experience for the Assessment System.
- Established a certificate management system in Ember.js, allowing secure certificate downloads for students.
- Enacted the certificate recertification feature, automating the process via email requests to the administrator.
- Collaborated with cross-functional teams to gather requirements, ensuring alignment with student and administrator needs.
- Conducted testing and debugging to ensure the Certificate System's reliability and performance.
- Contributed to the development of the Edmingle Website's landing page using Next.js.
- Created a new SignUp and Register Form with SSO authentication from the backend in Next.js.
- Integrated OTP verification Modal in Next.js through Email for Signing Up.
- Produced various pages in Next.js for About, Careers, Pricing, and other routes.
